

I would like to see you leave the phone soliation in Indiana alone. We like it just fine to get some piece and quite for a change. If you like these calls so well send me your personal phone number of which I would guess is unlisted. I will make sure it gets passed along so these people can call you at all hours of the day as well. If I could choke them through the phone I would, but like I said it is nice to be left alone for a change.
